Since the first edition, MetroAeroSpace represents an international meeting place in the world of research in the field of metrology for aerospace involving national and international institutions and academia in a discussion on the state-of-the-art concerning issues that require a joint approach by experts of measurement instrumentation and industrial testing, typically professional engineers, and experts in innovation metrology, typically academics.

This 7th edition will keep pursuing the state of the art and practice started over the past years. Attention is paid, but not limited to, new technology for metrology-assisted production in aerospace industry, aircraft component measurement, sensors and associated signal conditioning for aerospace, and calibration methods for electronic test and measurement for aerospace.

**TOPICS:**
The main topics include, but are not limited to:
- Electronic instrumentation for aerospace
- Automatic test equipment for aerospace
- Sensors and sensor systems for aerospace
- Wireless sensor networks in aerospace
- Attitude - and heading - reference systems
- Monitoring systems in aerospace
- Metrology for navigation and precise positioning
- Sensors and Data Fusion Techniques

**PAPERS SUBMISSION:**
Paper submission will be handled electronically, through the submission page set up on the conference web page: [http://www.metroaerospace.org](http://www.metroaerospace.org)
Prospective authors must electronically submit an Extended Abstract (4 pages, including figures). All papers will receive peer-review; authors will receive timely notification of paper acceptance. If accepted, final papers must be no more than 6 pages

**IMPORTANT DATES**
- Special Session Proposal - December 1, 2019
- Extended Abstract Submission - March 6, 2020
- Acceptance Notification - March 30, 2020
- Final Paper Submission - April 30, 2020

ORGANIZING COMMITTEE MEMBERS

HONORARY CHAIR
Marina Ruggieri, University of Rome “Tor Vergata”, Italy

GENERAL CHAIRS
Pasquale Daponte, University of Sannio, Italy
Robert Rassa, Raytheon, US
Bernardo Tellini, University of Pisa, Italy

TECHNICAL PROGRAM CO-CHAIRS
Stephen Dyer, Kansas State University, US
Stefano Debei, University of Padova, Italy
Luca De Vito, University of Sannio, Italy

PUBLICATION CHAIRS
Mirko Marracci, University of Pisa, Italy
Alice Buffi, University of Pisa, Italy

TREASURY CHAIR
Cosimo Stallo, University of Rome “Tor Vergata”, Italy

INDUSTRY LIAISON CHAIR
Eulalia Balestrieri, University of Sannio, Italy

TUTORIALS CHAIR
Gianluca Capocciuti, University of Pisa, Italy

INTERNATIONAL PROGRAM COMMITTEE
Domenico Acieno, University of Naples, Italy
Carlo Albanese, Telespazio, Italy
Giovanni Betta, University of Cassino, Italy
Paolo Carbone, University of Perugia, Italy
Luigi Carrino, DAC, Italy
Goutam Chattopadhyay, NASA, US
Xiuyan Chen, Southeast University, China
Marcello Coradini, ASI/JPL
Walter Cugno, Thales Alenia Space
Murat Efe, Ankara University, Turkey
Pietro Ferraro, ISASI-CNR, Italy
Jesus Garcia, University Carlos III, Spain
Domenico Giunta, ESA - ESTEC, Netherlands
Maria S. Greco, University of Pisa, Italy
Richard Hochberg, Lanmark, Technologies, US
Satoshi Ikezawa, Waseda University, Japan
Stephen Johnson, ARAMIS Engineering, US
Marian K Kazimierczuk, Wright State University, US
Karel Kudela, Institute for Experimental Physics
Fabio Lecese, University of Roma Tre, Italy
Chin E. Lin, National Cheng Kung University, Taiwan
Walter Matta, Vitrociset, Italy

Daniele Mortari, Texas A&M University, US
Aldo Napoli, Centre de recherche sur les Risques, France
Pavel Paces, Czech Technical University, Czech
William Prosser, NASA, US
Jacek Pieniazek, Rzeszow University of Technology
Marco Pisani, INRIM, Italy
Vasiliy Popovich, Russian Academy of Science, Russia
Helena G. Ramos, Universidade de Lisboa, Portugal
Artur L. Ribeiro, Universidade de Lisboa, Portugal
Roberto Sabatini, RMIT University, Australia
Nicolas Sklavos, University of Patras, Greece
Ephraim Suhir, Portland State University, US
Patricia Tavella, BIPM, Italy
Fabrizio Francesco Vinaccia, MDBA Italy, Italy
Graham Wild, RMIT University, Australia
Ruqiang Yan, P.R. China
Ho-Soon Yang, KRIS, Republic of Korea
Mark Yeary, University of Oklahoma, US
David Zucconi, SAB Aerospace, Italy

LOCAL ARRANGEMENTS

SPECIAL SESSIONS
MetroAeroSpace 2020 Program Committee solicits proposals for special sessions within the technical scopes of the Workshop.
Special sessions have the main aim of creating a mini-workshop on a specific topic, where researchers working on the same argument can make knowledge, familiarize, exchange ideas, create cooperation.
Researchers interested in organizing special sessions are invited to submit a proposal through the form available at the following URL www.metroaerospace.org/special-session-proposal

Proposals should include the session title, a brief description of the scope and motivation, related topics, biographic and contact information of the organizers.

LIVE DEMONSTRATION
The IEEE MetroAeroSpace 2020 Workshop will have "Live Demonstration" track to allow an interactive and tangible form of presentation, which is quite different from the oral and poster sessions.
The demonstrations will be conducted in presentation booths and ample space will be provided to set up a working system, may it be interactive software on a laptop or a hardware setup. Conference delegates are invited to experience the demonstrations directly, to interact with, play with, and challenge them. Presenters will have the opportunity to show direct proof of their working systems and to create a lasting impression.
Prospective demonstrations could be either be related to the work that has already been published or the one going to be published during the IEEE MetroAeroSpace 2020 Workshop.

PISA
The city of Pisa rises above the banks of Arno, just before the mouth of the river at Marina of Pisa. It is one of the most important cities in Tuscany and it is extremely well-known in the world, because of its famous symbol: “the Leaning Tower”.
Pisa is both an ancient and modern city. On the one hand, it is proud of its past, when it was a Maritime Republic and became a world power during the Middle Ages. On the other hand, now is famous for having three of the most important universities in Italy: The Scuola Normale Superiore, the Sant' Anna school of Advanced Studies and the University of Pisa.
